JESÚS GABRIEL ZABALA MORALES

Full-Stack AI Engineer & Automation Specialist

Anaco, Venezuela | Remote Work Ready | jesusgabrielwg@gmail.com

PROFESSIONAL PROFILE

Results-driven **Full-Stack Developer** specialized in **AI-integrated applications** and software automation. Expert in **Vibecoding** methodologies to drastically accelerate development cycles. Proven ability to bridge complex LLM capabilities (Gemini, DeepSeek) with intuitive user interfaces using modern JavaScript and Python stacks.

TECHNICAL SKILLS

AI & Automation:	**Vibecoding**, LLM Integration (Gemini, DeepSeek, OpenAI), Prompt Engineering, RAG Systems.
Full-Stack:	Node.js, React.js, Next.js, **Electron.js**, Python (FastAPI/Flask), JavaScript (ES6+).
Cloud & Database:	AWS, Azure, SQL (PostgreSQL, MySQL), Server Deployment & Monitoring.
Core IT:	Linux/Unix, OLT Monitoring, Network Infrastructure, Desktop App Development.

WORK EXPERIENCE

Full-Stack Developer & Systems Analyst — **June 2025 – Dec 2025**
AIC Tech C.A

- Architected and optimized internal software using **Vibecoding**, integrating LLM APIs to automate complex data enrichment.
- Developed cross-platform desktop utilities with **Electron.js** and Node.js for technical troubleshooting.
- Enhanced system performance by 40% through data analysis and framework optimization.

IT Support & Network Monitoring — **Jan 2026 – Present**
Panda Networks C.A

- Performing high-level real-time monitoring of OLT systems for ISP operations.
- Automated network reporting tasks using custom Python scripts, reducing manual workload.

KEY PROJECTS

AI-Driven Management Dashboard: Full-stack system built with **React** and **Node.js** that leverages **DeepSeek/ Gemini** to analyze and categorize large-scale datasets in real-time.

Custom Desktop Automations: Developed **Electron.js** applications to synchronize local network hardware data with cloud-based analytics platforms.

EDUCATION & CERTIFICATIONS

A.S. in Computer Science (T.S.U. Informática) — **2022 – 2025**
I.U.T. Antonio José de Sucre

Advanced AI Implementation & LLM Architecture — **2025**
Specialized Training | Integration of DeepSeek, Gemini, and Prompt Engineering.

Full-Stack JavaScript Mastery — **2024**
Professional Certification | Advanced React.js, Node.js, and Modern Web Ecosystem.
